Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Counsel had suggested a proposed amendment which would have added the term "electrical conductor" to claims 1 and 27. However, there was no support or definition in the specification for the term and therefore the term would be considered new matter if an amendment was filed as proposed. In addition, it was suggested that the compositional limitations of claim 3 be added to claim 1. Counsel indicated that this was not acceptable and suggested adding a thickness limitation to the glass coating. Counsel was advised this would require a new search.
